

# State of Michigan Employee Blood Challenge

## Explanation of pints donated

The blood-o-meter illustrates the number of pints donated by state employees at worksites.

The blood bag illustrates the number of pints donated at community/non-worksite blood drives, which are tracked using the ID cards.

---

**Grand total = 2959 pints donated**  
as of 03/31/06

\*\*However, the goal of the Blood Challenge is to increase worksite donations by 20%. This increase is based on donations from 11/04 -10/05 at state worksites. This does not include donations by SOM employees at community/non-worksites, which are now being tracked with the ID Cards.

**20% increase = 4,588 pints donated at SOM worksites 11/01/05-10/31/06**
